Chapter 1

Class Index

1.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

dis::CatalanPaths	3
dis::combinations< IntType >	3
dis::combinations< IntType >::iterator	4
dis::multisets< IntType >::iterator	4
dis::CatalanPaths::iterator	4
dis::MotzkinPaths::iterator	5
dis::partitions< IntType >::iterator	5
dis::subsets::iterator	6
dis::LexicographicOrder< T >	6
dis::MotzkinPaths	6
dis::MultisetIterator< IntType >	7
dis::MultisetIteratorDecreasingOrder< IntType >	7
dis::multisets< IntType >	7
dis::partitions< IntType >	7
dis::SubsetIterator	8
dis::SubsetIteratorDecreasingOrder	8
dis::subsets	8

Chapter 2

Class Documentation

2.1 dis::CatalanPaths Class Reference

Classes

- class [iterator](#)

Public Member Functions

- **CatalanPaths** (nuint n)
- const [iterator](#) & **begin** () const
- const [iterator](#) & **end** () const

The documentation for this class was generated from the following file:

- CatalanPaths.hpp

2.2 dis::combinations< IntType > Class Template Reference

Classes

- class [iterator](#)

Public Member Functions

- **combinations** (IntType n, IntType r)
- size_t **size** () const
- const [iterator](#) & **begin** () const
- const [iterator](#) & **end** () const
- vector< IntType > **operator[]** (luint m) const

The documentation for this class was generated from the following file:

- Combinations.hpp

2.3 `dis::combinations< IntType >::iterator` Class Reference

Public Member Functions

- **iterator** (IntType id)
- **iterator** (IntType n, IntType r)
- **iterator** (const [iterator](#) &it)
- **iterator** ([iterator](#) &&it)
- [iterator](#) & **operator++** ()
- const vector< IntType > & **operator*** ()
- const vector< IntType > & **operator*** () const
- size_t **ID** () const
- bool **operator==** (const [iterator](#) &it)
- bool **operator!=** (const [iterator](#) &it)
- bool **is_at_end** () const
- void **reset** (IntType n, IntType r)

Friends

- class **combinations**

The documentation for this class was generated from the following file:

- Combinations.hpp

2.4 `dis::multisets< IntType >::iterator` Class Reference

Public Member Functions

- **iterator** (const vector< IntType > &total)
- [iterator](#) & **operator++** ()
- const vector< IntType > & **operator*** () const
- vector< IntType > & **operator*** ()
- bool **operator==** (const [iterator](#) &it) const
- bool **operator!=** (const [iterator](#) &it) const

Friends

- class **multisets**

The documentation for this class was generated from the following file:

- Multisets.hpp

2.5 `dis::CatalanPaths::iterator` Class Reference

Public Member Functions

- **iterator** (nuint n)
- [iterator](#) & **operator++** ()
- bool **is_at_end** () const

- `nuint size () const`
- `void reset (nuint n)`
- `const VI & operator* () const`
- `VI & operator* ()`
- `bool operator== (const iterator &it) const`
- `bool operator!= (const iterator &it) const`

Friends

- class **CatalanPaths**

The documentation for this class was generated from the following file:

- CatalanPaths.hpp

2.6 dis::MotzkinPaths::iterator Class Reference

Public Member Functions

- `iterator (int n)`
- `iterator & operator++ ()`
- `const vector< int > & operator* () const`
- `vector< int > & operator* ()`
- `bool operator== (const iterator &it) const`
- `bool operator!= (const iterator &it) const`

Friends

- class **MotzkinPaths**

The documentation for this class was generated from the following file:

- Motzkin.hpp

2.7 dis::partitions< IntType >::iterator Class Reference

Public Member Functions

- `iterator (IntType n)`
- `iterator & operator++ ()`
- `const vector< IntType > & operator* () const`
- `vector< IntType > & operator* ()`
- `bool operator== (const iterator &it) const`
- `bool operator!= (const iterator &it) const`

Friends

- class **partitions**

The documentation for this class was generated from the following file:

- Partitions.hpp

2.8 dis::subsets::iterator Class Reference

Public Member Functions

- **iterator** (const [subsets](#) &parent)
- **iterator** (const [iterator](#) &it)
- **iterator** ([iterator](#) &&it)
- [iterator](#) & **operator++** ()
- const vector< int_fast8_t > & **operator*** ()
- bool **operator==** (const [iterator](#) &it)
- bool **operator!=** (const [iterator](#) &it)

Friends

- class **subsets**

The documentation for this class was generated from the following file:

- Subsets.hpp

2.9 dis::LexicographicOrder< T > Class Template Reference

Public Member Functions

- bool **operator()** (const vector< T > &lhs, const vector< T > &rhs) const

The documentation for this class was generated from the following file:

- Vectorhelpers.hpp

2.10 dis::MotzkinPaths Class Reference

Classes

- class [iterator](#)

Public Member Functions

- **MotzkinPaths** (int n)
- const [iterator](#) & **begin** () const
- const [iterator](#) & **end** () const

The documentation for this class was generated from the following file:

- Motzkin.hpp

2.11 `dis::MultisetIterator< IntType >` Class Template Reference

Public Member Functions

- **MultisetIterator** (const vector< IntType > &set)
- vector< IntType > **First** ()
- bool **Next** (vector< IntType > &subset)

The documentation for this class was generated from the following file:

- Multisets.hpp

2.12 `dis::MultisetIteratorDecreasingOrder< IntType >` Class Template Reference

Public Member Functions

- **MultisetIteratorDecreasingOrder** (const vector< IntType > &total)
- vector< IntType > **First** ()
- vector< IntType > **First** (nuint numelements)
- int **Next** (vector< IntType > &subset)

The documentation for this class was generated from the following file:

- Multisets.hpp

2.13 `dis::multisets< IntType >` Class Template Reference

Classes

- class [iterator](#)

Public Member Functions

- **multisets** (const vector< IntType > &set)
- **multisets** (IntType size, IntType n)
- const [iterator](#) & **begin** () const
- const [iterator](#) & **end** () const

The documentation for this class was generated from the following file:

- Multisets.hpp

2.14 `dis::partitions< IntType >` Class Template Reference

Classes

- class [iterator](#)

Public Member Functions

- **partitions** (IntType n)
- const [iterator](#) & **begin** () const
- const [iterator](#) & **end** () const

The documentation for this class was generated from the following file:

- Partitions.hpp

2.15 `dis::SubsetIterator` Class Reference

Public Member Functions

- **SubsetIterator** (const vector< int_fast8_t > &set)
- **SubsetIterator** (nuint n)
- vector< int_fast8_t > **First** ()
- bool **Next** (vector< int_fast8_t > &subset)

The documentation for this class was generated from the following file:

- Subsets.hpp

2.16 `dis::SubsetIteratorDecreasingOrder` Class Reference

Public Member Functions

- **SubsetIteratorDecreasingOrder** (nuint n)
- VB **First** ()
- int **Next** (VB &subset)

The documentation for this class was generated from the following file:

- Subsets.hpp

2.17 `dis::subsets` Class Reference

Classes

- class [iterator](#)

Public Member Functions

- **subsets** (nuint size)
- **subsets** (const vector< int_fast8_t > &total)
- size_t **size** () const
- const [iterator](#) & **begin** () const
- const [iterator](#) & **end** () const

Friends

- class `iterator`

The documentation for this class was generated from the following file:

- `Subsets.hpp`
